## PROFESSIONAL SUMMARY

Detail-oriented Office Technology and Management graduate with Distinction and experience in ICT operations, administrative support, and web development. I have worked with digital tools, supported technical tasks, prepared reports and documents, and supported daily operations in different work environments. I learn new technologies quickly, pay close attention to detail, and enjoy finding better ways to get work done. I am eager to apply my technical and administrative skills while building a career in manufacturing and contributing to a high-performing team.

## CORE COMPETENCIES

### Technical Skills:

- Microsoft Office Suite (Word, Excel, PowerPoint)
- Outlook
- HTML, CSS & JavaScript
- WordPress
- Microsoft Visio
- ClickUp
- Network & GPS Troubleshooting
- Software Installation & Configuration
- Graphic Design
- AI Productivity Tools
- Google Workspace

### Professional Skills:

- Data Analysis & Reporting
- Records Management
- Documentation
- Attention to Detail
- Analytical & Problem-Solving Skills
- Communication & Interpersonal Skills
- Time Management
- Process Improvement

- Technical Support
- Team Collaboration

## **EXCEL AND DATA ANALYSIS EXPERIENCE**

- Performed payroll calculations using Microsoft Excel to compute gross pay, net pay, deductions, and monthly payroll totals.
- Applied IF functions to automate conditional outputs such as pass/fail and cash/check classifications.
- Prepared income and expenditure statements using Excel formulas to organize and summarize financial data.
- Calculated sales totals, profit/loss, and grand totals using Excel functions.
- Created charts to visualize data and support reporting.
- Maintained structured spreadsheets to improve data accuracy and reporting efficiency.

## **AI TOOLS & EVALUATION EXPERIENCE**

- Use ChatGPT, Claude, Microsoft Copilot, DeepSeek, and GitHub Copilot to support research, document preparation, resume tailoring, technical writing, and administrative tasks while evaluating outputs for accuracy and relevance.
- Write and refine prompts to improve AI-generated responses for technical writing, research, coding, documentation, and administrative work.
- Review and edit AI-generated content to improve factual accuracy, grammar, clarity, formatting, and alignment with task requirements before final use.
- Cross-check AI-generated information against trusted sources and task requirements to identify inaccuracies, inconsistencies, or missing information before use.
- Apply critical thinking to assess AI outputs, compare alternative responses, and choose the most suitable solution based on accuracy, clarity, and usability.

## **WORK EXPERIENCE**

### **GAOTek**

**Mar 2026 - Jun 2026**

#### *Web Development Intern*

- Collaborated with remote team members using online communication and project management tools to complete assigned tasks on time.
- Built, customized, and maintained WordPress websites under the guidance of senior developers.
